Consulting and Software Solutions in
Exploration & Field Development

www.beicip.com

EXPERTISE • EXTENSIVE INTERNATIONAL EXPERIENCE • INDEPENDENCE • INNOVATION

Exploration: Select the right block and make faster and more accurate oil & gas discoveries for onshore, offshore, deep-offshore, unconventional, mature basins.

Field development: Increase your production and exploit the maximum potential of your reserves cost effectively. Use our Expertise in the smaller reservoirs to super giant fields, complex fields, carbonate-fracture fields, using innovated technology in I.O.R and E.O.R.

Technology transfer, mentoring, coaching: Develop and enhance the technical capacity of your geoscience teams through the dedication of our experts experience, knowledge and tools.
